Local and national level frameworks and guidance

In Wales and Scotland, the Manual Handling Passport is an example of minimum standards and expectations for health and social care as set out by Health Boards and Local Authorities. It has three main elements: manual handling organisation, education, training and assessment and finally an audit tool and guidance with criteria for manual handling documentation.

Title	Overview	Link
Health and Safety Executive -	Primary legislation covering occupational health and safety in the UK, including health and social care	Click Here
Health and Safety at Work etc.	sectors.	
Act 1974		
Health and Safety Executive -	Guidance which explains how to avoid, assess and reduce the risk of injury from manual handling.	Click Here
